portfolio : <https://dharshanvportfolio.netlify.app/>

Results-driven full stack developer with experience in web/mobile development, database integration, and UI/UX design. Passionate about delivering high-quality digital experiences with scalable, maintainable code. Skilled in both frontend and backend development.

EXPERIENCE

Full Stack Developer Intern (Offline) White and Box, Bengaluru

Jun 2025 - July 2025

- Developed and maintained full-stack applications (blog platform and room management system) using PHP, MySQL, XAMPP, and Tailwind CSS.
- Built responsive UIs, implemented backend logic, and optimized database operations, reducing manual effort by ~30%.
- Managed end-to-end development lifecycle, including debugging, testing, deployment, and team collaboration.

Software Developer Intern – Yuga Yatra Retail (OPC) Pvt Ltd, Bengaluru

Jan 2026 - Mar 2026

- Built and delivered web/app solutions using AI-assisted tools like **Cursor AI and Firebase**, improving development efficiency and prototyping speed.
 - Contributed to real-world client projects via Upwork, handling development and delivery in dynamic environments.
 - Worked with Amazon and Flipkart seller portals, gaining exposure to e-commerce workflows and operations.
 - Collaborated using Google Workspace, ensuring smooth team coordination and execution.
-

EDUCATION

Bachelor of Technology in Information Technology - 8.5 CGPA

- Er. Perumal Manimekalai College of Engineering, Hosur

Class XII – Higher Secondary Certificate (HSC) - 77.8%

- Sri Gurukulam Senior Secondary School, Hosur
-

SKILLS

- **Languages** : Python, Java, JavaScript, Dart, C, C++
- **Frontend / Web** : HTML, CSS, JavaScript, Bootstrap, React, Tailwind CSS, Angular
- **Backend** : PHP, Flask, Node.js, Express.js
- **Mobile** : Flutter (Dart)
- **Databases** : MySQL, SQLite3, MongoDB, Firebase
- **Full Stack** : MERN Stack, MEAN Stack, REST API, Client–Server Architecture
- **Tools** : Git, GitHub, VS Code, XAMPP
- **UI/UX & Design** : Figma (UI/UX), Adobe Photoshop
- **Additional Technical Skills** : API Integration, PyQt5, Matplotlib

CERTIFICATIONS

Technical Certifications

- HTML & CSS — Cisco Networking Academy
- Advanced Python Programming — NSDC Skill India & Reliance Foundation
- Complete C Programming Bootcamp — Udemy
- No-Code Web App Development (Bubble.io) — NSDC Skill India & Reliance Foundation

Hackathons & Technical Events

- Idea Hack 1.0 — Hackathon Participant, IDEA HUB Networks
 - AVISHKAAR Virtual Event — Hackathon Participant, Avishkaar
-

PROJECTS

AR-NavSense – App for Visually Impaired Users (Final Year Project) Flutter, Dart, Android, OpenStreetMap APIs, OpenRouteService APIs	Jan 2026 – May 2026 Live - D - AR-NavSense
• Developed a real-time Flutter-based intelligent navigation platform for visually impaired users, integrating voice-guided navigation, GPS route optimization, Bluetooth accessibility support, and Emergency SOS features to enhance independent mobility and user safety. • Engineered a modern accessibility-first mobile experience with responsive UI/UX, real-time location tracking, audio and haptic feedback systems, and smart API integrations, while deploying the application with live APK distribution, GitHub version control, and a full project showcase platform..	
D-Luxury Grand Hotel – Internal Hotel Management System Flask, SQLite, HTML, Tailwind CSS, JavaScript	Jan 2026 – Feb 2026 Live - D - Luxury Grand
• Built a full-stack internal hotel management system to automate room availability tracking, bookings, and check-in/check-out workflows using Flask and SQLite, ensuring reliable data handling and smooth front-desk operations. • Designed a responsive, staff-friendly interface with Tailwind CSS, HTML, and JavaScript, integrating backend logic, REST-style routing, and real-time UI updates to reduce manual effort and improve operational efficiency.	
Binlytics – Analytics at the Source Web Application React, Node.js, Express.js, MongoDB, Chart.js	Nov 2025 – Dec 2025 Live – Binlytics Platform
• Built a full-stack analytics platform to track, analyze, and visualize waste segregation data with bin-wise scoring, enabling real-time insights and data-driven decision-making using React, Node.js, and Express. • Developed interactive dashboards and REST APIs with secure data handling and dynamic charts, improving visibility into segregation performance and overall system efficiency.	
WanderDharsh – Youth & Adventure Travel Booking Website HTML, Tailwind CSS, JavaScript	Oct 2025 – Oct 2025 Live – WanderDharsh Website
• Built a responsive single-page travel booking website focused on youth, college IV, family, and honeymoon trips, showcasing destinations and packages with a clean, modern UI. • Designed interactive layouts using Tailwind CSS and JavaScript to enhance user engagement, improve navigation flow, and deliver a smooth browsing experience across devices.
